Mark Casey, Judith Herbst : Red Lace, Yellow Lace before purchasing it in order to gauge whether or not it would be worth my time, and all praised Red Lace, Yellow Lace:

0 of 0 people found the following review helpful. NiceBy ddeerenvery cute rhyme to learn with. I bought several items to teach my kids with, this was the least favorite, but it is very cute, and a great concept. You know your child best so you would be able to tell if this would help them learn. The book only teaches one way to tie, which was limiting for my family, the book did separate from the shoe rather effortlessly if you ask my 4yr old, however it is durable and we keep it to practice with.0 of 0 people found the following review helpful. Long laces different color laces help little kids alot!By Christa BrineySo far this book has helped me teach 2/4 of my kiddos how to tie their shoes.We honestly didn't use the reading pages as much as we expected. They do tie shoes slightly different than my husband and I do so we just took advantage of the very long shoe laces different color laces to help them learn how to tie and as they got

better we switched to their own shoes. And alternative option to this book could be buying adult shoe laces and putting them on a pair of kid shoes to teach them. 0 of 0 people found the following review helpful. You must buy this book!!!!!! By Yesenia Gomez This is a book that you should purchase, not only will it teach your child to tie their shoes it will also get them excited about learning how to do it on their own. My 5yr old learned in about 30 minutes and the smile on her face was priceless. She wanted to show her dad, grandpa, and sister as soon as she learned.

"Red lace, yellow lace. . . learn to tie your shoe." A set of verses, step-by-step color illustrations, and a model child's shoe with real laces are the components of this charming, instructive package that gently challenges toddlers' hand-eye coordination. The illustrations show a pair of hands and a pair of laces, close up and in detail-and the model shoe gives kids something to practice on.
