Dot Barlowe, Coloring Books : Rocky Mountains Plants and Animals (Dover Nature Coloring Book) before purchasing it in order to gage whether or not it would be worth my time, and all praised Rocky Mountains Plants and Animals (Dover Nature Coloring Book):

2 of 2 people found the following review helpful. NATURE LOVERS DELIGHTBy MaryWonderful coloring book for animal lovers. Many lovely natural scenes. All ages should enjoy.6 of 6 people found the following review helpful. Educational coloring book for older kids or adultsBy 1B2I really like the Dover coloring books. Art work is nicely done, although on this particular book, the ink details on some pages didn't leave much room for color. It is nice also to have the description of the plants and animals.0 of 0 people found the following review helpful. The cousins love them!By Portia W.I've been buying/collecting these coloring books for our cabin. The cousins love them!

Rugged mountain peaks, alpine streams, and heavily forested areas are home to the many plants and animals that inhabit the Rocky Mountain region in North America. Illustrator Dot Barlowe captures the area's beautiful vistas and wildlife in 27 accurately rendered, ready-to-color illustrations. Nature lovers, environmentalists, and coloring book fans alike will treasure this collection that provides detailed images of a hawk circling high above a mountain valley, a puma watching its playful cubs, a chipmunk sampling pine nuts, a black bear snagging a rainbow trout, and other creatures in realistic scenes each accompanied by fascinating, information-packed text.
