Suzanne Verrier : Rosa Rugosa before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rosa Rugosa:

1 of 1 people found the following review helpful. OK But Nothing Special By Elaine Bales This book was a disappointment to me because for one, it did not list the plant zone for the roses discussed. Some did not have the photos. It was all right, but not a book I would purchase again. Not thorough enough and on the internet I would have obtained more in depth information with all photos of roses mentioned. 0 of 0 people found the following review helpful. good book on rugosas By bhumi b. excellent 0 of 0 people found the following review helpful. Five Stars By John V. Hugill My wife loves this rose.

Rosa Rugosa is a beautiful book about these stunning flowers which, while highly ornamental, also have the exceptional merit of being more at home in northern climates than southern.

... deals specifically with individual characteristics of the roses, and then highlights exact requirements and merits for particular varieties and cultivars. -- Cynthia Boyd, Newsletter: Newfoundland Horticultural Society, March 2000 Gardeners who are having rose problems and those in cold climates would find Rosa Rugosa a particularly useful introduction to this family of hardy, pest-free and disease-resistant roses. -- Anne Marrison, Burnaby Now, November 24, 1999 About the Author Suzanne Verrier owns and operates a saltwater farm and nursery in Maine specializing in unusual and rare roses. She is a consulting rosarian, lecturer on roses, and garden designer. Her articles and photographs on roses and other garden topics have appeared in many publications, and photographs of her personal and nursery display gardens have been featured in various books and magazines. She is also the author of Rosa Gallica. Charles Steinhacker is an award-winning landscape and conservation photographer whose books include Superior: Portrait of a Living Lake, Yellowstone: A Century of the Wilderness Idea, and The Sand Country of Aldo Leopold (Sierra Club). His work has appeared in National Geographic, Life, Audubon, and other periodicals.

Steinhacker's photographs have been widely exhibited. He has taught photography throughout the United States.
