Aside from the title and a few anecdotal asides, there isn't much for the reader on companion planting! Rather, most of the book acts as a who's who of plants, listing the names and a plants attributes- nary a word on who to plant with whom!0 of 0 people found the following review helpful. Five StarsBy Silver Fox 42good reference book0 of 0 people found the following review helpful. basically a reference bookBy RocKin40basically a reference book, has nothing to do with "roses love garlic" except one reference that roses and garlic grow well together

Secrets of companion planting with flowers.
