I've gotten many compliments on one of the jewelry sets I made using this book, and everyone is usually shocked when I stretch the bands out- they can't tell it's rubber bands! Wonderful book, and highly recommended if you are an adult looking for a more adult look with Rainbow Loom bands. 2 of 2 people found the following review helpful. Cute new designs! By piglet fan My daughter and I both love the jewellery in this book. As long as you (or your child) have a solid grasp on how to loom

in various styles you should be able to make anything in this book.0 of 0 people found the following review helpful. ...

She immediately picked it up and created a bracelet merging 2 different patterns. Well worth the money and I would recommend for any one wanting to learn more about these bracelets.
