It's a fairly thin booklet, but the instructions for the different stocking stuffers, boxes, and even toys are wonderfully done.By the way, works with a Martha Stewart board as well...0 of 0 people found the following review helpful. Score, Fold, RecreateBy CassieI am new to scoring and folding. I finished reading the book hungry for more ideas and I was a bit disappointed with the published examples (but that's me). I do like the clock (cover) which I will convert into a paper birdhouse. If you want to make different size rosettes and build a holiday tree with them, the

instructions are in this book. I was totally confused with the train but after the train are simpler projects. I do like the variety of decorative line work and the clear instructions make them so much easier than they look. With a few changes here and there, you can create projects more to your liking as long as you change the measurements accordingly. 0 of 0 people found the following review helpful. Great book with easy to follow instructions on embossing paper, making boxes and even circus box cars using a Scor-Pal or another scoring type tool. Love the plaid scoring technique. And the paper boxes couldn't be easier - square, rectangles all kinds.

Stunning paper crafts with unique and inspiring designs can be found in this collection of projects. Crafters can learn how to use the Scor-Pal scoring boards and tools to their full potential with the aid of easy-to-follow tutorials, detailed assembly instructions, and graphs. Lovely handmade cards, gift boxes, and decorative pieces are among the brand-new project ideas that will be treasured by friends and family for years to come. Those who are new to the art of scoring and folding paper and those who have been practicing these skills for years will find creativity-sparking ideas in this eye-catching assortment of designs as well as practical information on utilizing the helpful Scor-Pal tools.
