I plan to use the ancient rules from this book to create a naval rules set for fantasy gaming, with mages hurling Lightning Bolts and Fireball spells. This book's rules are simple enough to adapt, and his examples on how to build ship models are excellent. Cheers! 0 of 0 people found the following review helpful. Nice.. still an alternative to very expensive miniature ... By Steven Argyle Nice.. still an alternative to very expensive miniature games. 4 of 5 people found the following review helpful. ESSENTIAL READING for the Naval Wargamer. By Travelling Kiwi I read this as a teenager and finally managed to get a copy of my own recently. It is eminently readable and enjoyable. It is an essential for the Naval Wargamer.
