Anna Maria Horner : Seams to Me: 24 New Reasons to Love Sewing before purchasing it in order to gauge whether or not it would be worth my time, and all praised Seams to Me: 24 New Reasons to Love Sewing:

48 of 49 people found the following review helpful. Beautiful book for experts and beginners alike. By Lori Rees Seams to Me is a beautiful book. There are beautiful photographs, illustrations, and detailed instructions. There are projects here for everyone. I would consider myself an intermediate sewer. I've been sewing for over ten years and there are many projects I'm interested in completing. There is a quilt project, a fabric art project, as well as many other projects that would be appropriate (and fun) for varying levels of experience. More experienced sewers can skim the detailed instructions and the intro explaining sewing tools and such. One of the most common complaints concerning sewing books is that the instructions aren't detailed enough. Horner had the foresight to serve her customers and include excellent instructions and illustrations. 0 of 0 people found the following review helpful. Poor condition By waklieb Third was clearly not new or at least not in new condition. A sticker had been peeled off the back. The corners are worn. Very disappointed :(3 of 3 people found the following review helpful. Great Resource! By DTStickybuns The main thing I can rave about Anna Maria's book is the first 5 chapters that explained what looked to me to be pretty much everything I wasn't sure of in the sewing world! She goes through everything from the machine to notions, to fabric and even hand sewing. These beginning chapters have diagrams and charts showing you different tools, needles for different fabrics, stitches, how-to-sew, etc. I'm a visual person so the diagrams really helped me understand better

how to sew. For a seasoned seamstress that resource might be redundant, but for a beginner or intermediate sewer like myself this resource really helped me understand better how to sew and increased my confidence since now I feel like I know how to 'do it right'. I only like a few of her fabrics and this book is chalk full of them so the eye candy factor hit lower on this book for me than many others I have. If you love her fabrics I definitely recommend the book, it's certainly eye candy for the right kind of person. I found it a little 'busier' than I personally like though as far as coffee table books go. The projects are alright, only a few really stood out to me like the patchwork ball, the Basket Case Pillow, and the Bo Peep Skirt with Prairie Blouse. I say this only because I have similar projects in other books I would prefer to use. Even so just those 4 patterns make the price I paid for the book well worth it to me. And if you're looking for a book to give you a better overview on sewing it's a great one to own especially if you don't own any other sewing books. It'll have that plus a lot of projects to try out!

Admired fabric designer Anna Maria Horner draws on her passion for art, sewing, and textiles to inspire one-of-a-kind projects. Anna Maria Horner's signature style combines the techniques of a seasoned sewer with the vision of an artist. In *Seams to Me: 24 New Reasons to Love Sewing*, she walks you through the fundamentals, offering practical advice on everything from fabric selection to color choices to choosing and buying a sewing machine. Simple step-by-step instructions show you how to turn her designs into fanciful creations: Sideways Squares Skirt, Prairie Blouse, Full Contact Cooking Apron, Playing Along Quilt, Doggie Dreams Bed, and so much more! Vivid full-color photographs and designs will invite you into the creative process. Whether you're a beginner or a veteran, the twenty-four projects in this beautiful book will transform your home and wardrobe into a collection of unique treasures.
