Chris Stone : Seed to Weed: A Pot Enthusiast's Guide to Growing Marijuana before purchasing it in order to gage whether or not it would be worth my time, and all praised Seed to Weed: A Pot Enthusiast's Guide to Growing Marijuana:

2 of 2 people found the following review helpful. I got out of it exactly what I had expectedBy Thomas J. MartinI got out of this book exactly what I had expected with the surprising benefits of it being an enjoyable, easy, and entertaining read. Haven been a graphic designer (print) I appreciate the GREAT design of this book. The cover did although fall off due to glue issues, but I have to also add that, like my dog (she eats them), I am very tough on books. So enamored with this product, I am also going to read and SAVE the author's other books (which seem to be a non-linear series of sorts) when its in my budget (emphasis on "bud")1 of 1 people found the following review helpful. Great content, poorly madeBy A. HunterThe title says it all. It really does give you great information about growing. However the book fell apart from its binding and isn't that well put together. I still gave it 4 stars because the information was clear and concise1 of 1 people found the following review helpful. Growing for Dummies!By Alessandra CesenaReally easy to read and understand. The author explains every process without making it too lengthy. The perfect book! a

In this era of marijuana activism, DIY, and gardening fever, what better use for that windowsill or small patch than growing your own weed? This fun, colorful guide makes marijuana cultivation less intimidating than ever before.Cannabis grow guides are perennial strong sellers, and with increasing public interest in marijuana, sales can only continue to rise. While other titles on the subject tend to be serious in tone and photographic in treatment, this illustrated, wacky-but-informative gift book with an extremely affordable price is uniquely positioned to appeal to small-scale growers and absolute beginners. Seed to Weed covers everything needed to get started growing: hardware, lighting, hydroponics, organics, cloning, pests diseases, harvesting, curing, and more. With its light touch, humorous tone, and easy-to-follow step-by-step sequences, Seed to Weed will have readers growing great ganja in no time.

About the Author Chris Stone is the pot enthusiast, writer, and editor responsible for counterculture classics like *Spliffs*, *Spliffs 2*, *Spliffigami*, *Bongology*, and *Baked*.
