Nancy Zieman : Sew Knits with Confidence before purchasing it in order to gage whether or not it would be worth my time, and all praised Sew Knits with Confidence:

21 of 21 people found the following review helpful. easy, detailed instructionsBy ReneaThis book contained the most information on how to sew knits that I have found. The instructions are very clear and easy to follow. This definitely exceeds the Collette Guide in actual information. (I bought both.)8 of 8 people found the following review helpful. Great bookBy 3girlzn3boyzLove. This. Book. I ordered this after ordering the Collete Guide to Sewing Knits. Both are nice, and honestly the Collete book is prettier. But While visually pleasing is of course nice, it's the information and the way it is explained that make a good how to book. And Nancy certainly knows how to explain things in a very easy to understand way. There are a few things she mentions that I am glad I'd already read about as she does not go into detail, assuming you already know a few things about sewing in general. However her instructions are clear, concise and right on. After reading this I promptly ordered her other "with confidence" books and am looking forward

to checking them out. My only complaint is that it does not explain how to easily sew a downturned neckline and there isn't a lot of information on sewing with velour. These are what I am struggling with now and can not find information anywhere. Also, there is some mention of using a coverstitch machine, but not a whole lot. It does give serger instructions along with sewing machine instructions, which is very helpful, but it would be nice if it included instructions with a coverstitch machine as well. So- nice, easy to understand and good drawings. Would like more info on sewing with velour, sewing with a coverstitch machine, and how to easily sew a turned down knit neckline. 5 of 5 people found the following review helpful. Very Helpful
By Melissa
This book demystifies sewing with knits. I have always followed pattern instructions to the letter but in order to make knits without that "I made it myself" look you need techniques that are different than those included in the pattern. Nancy gives directions for sewing both with a serger and without. The kindle version is friendly and easy to move round on after you bookmark it by reading through the first time

It's sew on! What's not to love about knits? They're flexible and fashionable, extremely versatile, and completely wearable. But are they too tricky to sew? Not with expert Nancy Zieman at your side! Nancy's no-fear approach to this easy yet comprehensive guide will inspire you to try all kinds of knit fabrics in your sewing projects, for results that are truly rewarding. With this book, you will:
Learn about a wide variety of knit fabrics and their best sewing uses.
Practice basic techniques and pick up dozens of tips that will build your confidence.
Discover how to choose the right knit fabric for your needs.
Test your skills on 5 fully illustrated step-by-step projects, ready to sew and wear. Even the most challenging knit is no match for you and your sewing machine with this helpful guide. Let's sew!
