By Crystal Thoreson Before ordering this I was familiar with the author's style aesthetic, which I adore, so I had an idea what types of things I would find in the book. The book is mainly geared towards those with little to no sewing knowledge. Despite the fact that I am an intermediate/advanced home sewist I found plenty of ideas to add to my repertoire. The section on refashioning and embellishing items one already has had some really fun ideas as did the accessory section. The photography and writing style are lovely. I have already ordered the author's second book. 0 of 0 people found the following review helpful. glad i got it in hardback By Customer just a refreshing, delightful read; so inspiring, glad i got it in hardback; a
