Emma Hardy : Sewing in No Time: 50 Step-by-step Weekend Projects Made Easy before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sewing in No Time: 50 Step-by-step Weekend Projects Made Easy:

88 of 88 people found the following review helpful. Lovely projects to complete easily and quickly By Cathy My favorite craft magazine is Marie Claire Ideas even though I speak very little French. When I see a project in the magazine that I'd like to make, I painstakingly translate the instructions with the help of a French/English dictionary. Looking through this book reminds me of Marie Claire Ideas projects with English instructions! It turns out the author, Emma Hardy, does in fact contribute to that magazine. The projects in the book are simple designs using beautiful choices of fabrics with easy embellishments. Ms. Hardy's projects are well designed. Compare her design for a laundry bag with Amy Butler's pattern and you'll see a more interesting balance of bands of fabric and of fabric choices. The projects in the book include a very cute covered hanger embellished with a fabric, ribbon and button

flower, beautiful bed linens, a useful doorstop, pillows, blinds, notebook cover and much more. I did not like every project in the book but I found 9 projects I'd like to make. Most books rarely have more than two that catch my eye. The instructions are clear, the photos are beautiful. 3 of 3 people found the following review helpful. My favorite project book - easy to follow and projects are both useful and decorative. By Bird That Flew This is my favorite "easy projects" book. It has simple, easy to follow patterns that are simple in design enough to cater to your own tastes. This was my first project book after taking a 15 hiatus from sewing (during which time I forgot mostly everything!) This book was a huge help to me. This is the only sewing project book I have read that isn't too cutesy - these are just basic yet useful and decorative items that everyone can use, like placemats and a duvet cover, as opposed to the usual baby clothes or Kindle cover that are found in most other books like this. 70 of 71 people found the following review helpful. Beautiful photos, good instructions. By S. MacDonald I purchased this book based solely on the one review on ! I am completely pleased with my purchase now that I have it in my hot little craft-book-junkie hands. The bright photographs of projects using a wide variety of patterned fabrics are inspiring alone. The projects are broken into the following categories: Relaxation Spaces, Kitchens and Dining Rooms, Bedrooms, Work and Play, Laundry and Bathroom, Outside Spaces. There are clear instructions with nice colored drawings to go along with the description. The projects are basic, and yet the instructions are so nice and just a little bit different enough to make me want to follow them to make a placemat, floor covering, pillowcase, sewing kit, fabric-covered storage box (using cardboard and fabric) and MORE! I highly recommend this book for the person who has fabric to use and gifts to give...or gifts to give and wants to have an excuse to buy cute new fabrics... Update: My first project from the book--a cute bathmat. The fabric requirements listed do not match what is needed and the picture is different than the instructions..ie, the bathmat has terry cloth framed with a narrow border and then a wide border. No instructions are ever given for the narrow border--just instructions that are the same as the wide border. It was frustrating, but I was able to figure out a way around the instructions. Hopefully the next project lets me just go through without having to figure my way around the instructions!

Store-bought soft furnishings can be expensive and the choice is often limited but with so many gorgeous designer fabrics on sale, there's never been a better time to make your own. "Sewing in No Time" sets out 50 simple step-by-step projects using nothing more than the most basic of sewing skills. From a simple curtain with a pattern border and a striped duvet to a fabric storage box and a children's play tent, "Sewing in No Time" is the perfect book for people who are big on ideas but short of time. Whether your home is a traditional country cottage or a modern warehouse-style apartment, you're sure to find plenty of ideas to inspire you. Inspirational project ideas for every room in the home. Designer style can be achieved at a fraction of the cost. Step-by-step projects show clearly how to make each piece.
