I do though, and it turns out that this book doesn't cover the kinds of unusual (Faroese) shawl shaping I was led to believe it would, so I'm regretting I paid so much for it. It's photo and paper quality is substandard, otherwise it would be giftable to a shawl knitting novice.1 of 1 people found the following review helpful. ... 1 copy and the other as work books I love the information in itBy brandytwo458I will buy all3 again as I keep 1 copy and the other as work books I love the information in it0 of 0 people found the following review helpful.
