Got to love those big eyes, each girl's body language and how she places her feet/legs, arms and hands. She has character...lots of it. My only complaint is there is a copy of every page...so you get two of everything. One day I may consider this an okay thing...especially if I should mess up. There are quite a few offerings of books by Sherri Ann Baldy and it is hard to choose which one to get. I guarantee you will love them. I am an old grandma with imperfect eyesight and I can still color these little beauties....good size. Enjoy.0 of 0 people found the following review helpful.
