The artist designs are out of this world. The overall theme of this coloring book revolves around birds and bird lovers. The little girls in this book are adorable and I enjoy coloring them and the cute little clothes that they wear. There are two images of each picture.2 of 2 people found the following review helpful. I love Sherri's artwork!By Katniss05Cute artwork! It's so much funner for me to color actual pictures, instead of the tiny shapes that make up a picture in most adult coloring books! The paper quality is fair, I've never been unhappy with any of Sherri's books. In fact, I bought one coloring book that comes with removable plastic sheets,

just to use with ALL my coloring books. Yes, markers of any kind will bleed through the page. Gel pens have not, but they do leave indentations. Thus the need for extra pages (or a plastic insert) behind the page you're coloring. This book gives hours and hours of immersive coloring! 0 of 0 people found the following review helpful. LOVE HER BOOKS

As always I am extremely satisfied with Sherri Baldys books they are just too adorable to pass up I am hoping I am all caught up on her books now! These little girls have gorgeous big eyes and are lots of fun to color. I'm having a blast playing with my markers and coloring pencils with these cute designs. There are 2 of each image they are single-sided. The paper is about the same as most books. The images are beautiful adorable at the same time. Super cute, like the rest of the series from Sherri Ann Baldy. These make my heart melt:) I just love Sherri Baldy coloring books. Sure wish she'd make more like cupcake and treats and coffee themed! This book was the perfect addition to my coloring book collection. I don't know what page to color first. Love Love it
