I thought I would never be able to color the tiny, delicate things in these pictures.One day I made my self get it out and now I am addicted to this book. I had 3 boys and now I am having a blast dressing these little girls!! This book is now one of my favorites!!0 of 0 people found the following review helpful. LOVE HER BOOKSBy Melissa2018As always I am extremely satisfied with Sherri Baldys books they are just too adorable to pass up I am hoping I am all caught up on her books now! These little girls have gorgeous big eyes and are lots of fun to color.I'm having a blast playing with my markers and coloring pencils with these cute designs. There are 2 of each image they are single-sided. The paper is about the same as most books. The

images are beautiful adorable at the same time. Super cute, like the rest of the series from Sherri Ann Baldy. These make my heart melt:) I just love Sherri Baldy coloring books. Sure wish she'd make more like cupcake and treats and coffee themed! This book was the perfect addition to my coloring book collection. I don't know what page to color first. I found only a few that would be of interest to me. I plan to give it away to someone for Christmas. I was disappointed because the same hats and the same expressions are used time after time. Some new material needs to be introduced to make the images fun to do.
