**Kathy Sheldon : Shrink! Shrank! Shrunk!: Make Stylish Shrink Plastic Jewelry** before purchasing it in order to gage whether or not it would be worth my time, and all praised Shrink! Shrank! Shrunk!: Make Stylish Shrink Plastic Jewelry:

2 of 2 people found the following review helpful. Shrink! Shrank! Shrunk!: Make Stylish Shrink...By JC ShawExcellent book, clear instructions and great inspiration and ideas. Actually bought twice-- one for me and later one as a gift.2 of 2 people found the following review helpful. Loved the book but need help!By Adrienne M. BerryI got the book and devoured it as I do all the craft/art books I buy. The reason I got this book though is because I wanted to start making my own jewelry from the inkjet shrink plastic. I have been doing this for about 2-3 months now but keep running into a problem that is driving me nuts!! I follow all the steps for doing the inkjet shrink plastic. But somewhere between baking and sealing I get all this lint on my piece. I've been using a spray acrylic. ANY TIPS WOULD BE HELPFUL, I'VE GOOGLED EVERYTHING I CAN THINK OF AND DON'T KNOW WHERE ELSE TO LOOK FOR AN ANSWER. Thank you for any direction!0 of 0 people found the following review helpful. Four StarsBy CarlMy wife really likes this book

Remember Shrinky Dinks--those plastic sheets that magically shrink and harden when heated in the oven? Millions of fans do. Now they're back and a hot trend with both mainstream and Etsy crafters. Shrink! Shrank! Shrunk! introduces crafters to this friendly, fast, and fun way to create cool--and surprisingly chic--jewelry. It covers everything from the many new kinds of shrink plastic available (including printable) to the latest techniques. The 35 stylish projects include cute animal-shaped rings, a Mexican oilcloth necklace, origami airplane earrings, and more!

"Children of the 1970s and '80s may remember Shrinky Dinks--preprinted pieces of shrink plastic to color and cut out. Modern shrink plastic comes in a variety of finishes, and some plastics can be imprinted with an inkjet printer, but the preparation is the same: color, cut out, and bake until the plastic shrinks. Standout projects include whimsical paper-airplane earrings, a Liberty-esque floral-print earring and necklace set, and several minimalist pendant projects that resemble glass, rather than shrink plastic. VERDICT: Gen X crafters will be intrigued by the retro raw materials, but the projects highlight all of the possibilities of shrink plastic. The pieces are eye-catching and bear little resemblance to the Shrinky Dinks of yore." --Library Journal
