Susan Moyer : Silk Painting for Fashion and Fine Art: "Techniques for Making Ties, Scarves, Dresses, Decorative Pillows and Fine Art Paintings" (Practical Craft Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised Silk Painting for Fashion and Fine Art: "Techniques for Making Ties, Scarves, Dresses, Decorative Pillows and Fine Art Paintings" (Practical Craft Books):

1 of 1 people found the following review helpful. Brilliant and sparing nothing. Inspirational and instructional.By graceSusan Moyer is a wonderful, creative, inspirational silk artist and pioneer who it would take a lifetime to

emulate. This book, whether on disc or in paperback format, has so many inspirational ideas and instructions that no matter what stage you may be at in learning about silk painting, you will return and still find benefit. I highly recommend both of her books to anyone wishing to expand their artwork in this arena, whether for clothing, or images. 0 of 0 people found the following review helpful. Excellent guidance by an expert. By A.A. Norman Ph.D. Great advice and instructions. Very well written by an expert in silk painting. 0 of 0 people found the following review helpful. Five Stars By Sandy Lackey Great inspiration and ideas

From the bestselling author of *Silk Painting* comes the first book that shows how to create fashions and beautiful silk paintings from painted silk fabrics. Includes techniques for making scarves, ties, dresses, decorative pillows, and fine art paintings. 200 color illustrations.

.com Elevating silk painting to a high art form, this lushly illustrated book turns simple scarf decoration on its head. Some of the painted designs are so intricately detailed they look almost like photographs; others resemble glorious watercolor paintings. Techniques and tools are clearly explained, as are working with color and exploring design ideas. Be forewarned, however: a good portion of the book is devoted to advanced techniques, so the novice silk painter may not be able to jump right in. But for those with some prior experience, this volume really shines as a source of instruction and inspiration.
