Judith Pinnell : Silk 'Paper' Creations for the Fibre Artist (Milner Craft Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Silk 'Paper' Creations for the Fibre Artist (Milner Craft Series):

0 of 0 people found the following review helpful. Excellent instructionsBy Sheila AryThis book is well illustrated with lovely pictures of finished pieces and helpful illustrations that go with the good, clear instructions. My only problem with the book was that I didn't find the finished pieces very inspiring. Some are so decorated that the beauty of the silk paper is lost under the embellishments. That's a personal reaction, and I would not want to discourage others from buying this book for the excellent instructions. The author gives tips for different methods you can use for making silk paper, and for using different kinds of silk, with more detail than some of the other available books on silk paper making.0 of 0 people found the following review helpful. Nice TechniquesBy RickiI love textile art and this is a

wonderful addition to my library. A couple of new ideas and techniques for me to try out.6 of 13 people found the following review helpful. silk paper creationsBy Natalie J. Coombespretty pictures but as i have been making my own silk paper for some years now, it did not have what i was looking for in ideas and new styles.

Take silk to a completely new dimension. Since the publication of *Take Silk*, Judith Pinnell's first book, new approaches and new materials have become available as mediums for fiber art. Those who want rich color and texture in their work, and who delight in handling pure silk fibers, will find dozens of beautifully illustrated ideas and instructions on these pages. In detail, Pinnell offers imaginative ways to make the paper; manipulate, texture, and embellish its surface; and mold it into shapes that include bowls, vases and masks. Projects include a Notecard Sachet, Silk Chiffon Wrap, and Bougainvillea Basket.
