Silk Ribbon Embroidery for Gifts and GarmentsBy vikkiOn the whole I was very disappointed with this book, the designs are beautiful and the projects look easy but the book presentation is lacking.Possibly to cut costs the publishers have 55 black and white pages with 8 colour pages in the middle. In those 8 colour pages there are 12 pictures that show 26 finished projects. I find that they are so small you can hardly see the detail in them.Nevertheless, there are many useful ideas and lots of sketches accompanying the project write-ups. The instructions are also clear and easy to follow. The embroidery style is fine and delicate, using silk ribbons and threads, and is perfect for clothing and washable items as the embroidery is well secured and sits quite flat.This book is a good book to buy if you want to add it to your collection, but not as a reference book.

Stunning new silk ribbon embroidery designs using six simple stitches and readily accessible materials. ."..one of the

beautiful books on the subject."-- "Threads Magazine. 72 pages (8 in color), 70 b/w illus., 7 1/4 x 10 1/4.
