Comparison to other vellum paperBy Suzanne T.I ordered this paper, along with a ream of "Vellum Value Pack 8.5"X11" 50/Pkg-Clear" by Darice so that I could compare. The Simple Foundations pack only had 30 sheets and the other package I ordered had 50 sheets (so cheaper!). I want to say that they are both exactly the same. Same weight, so translucent color. Thought I would share because I'm sure someone out there was wondering if there might be another, less expensive, option. I do plan on keeping both packages, since I opened them up.11 of 11 people found the following review helpful. This is the perfect tool for foundation piecingBy Black Belt GrannyAlthough I have quilted for 20 years, I have never learned the technique of

foundation piecing. This product was highly recommended by my Yahoo quilting group online, so I ordered a package of it and I have to say, it performed wonderfully. It went through my laser printer with no problem, sewed beautifully and no problems removing it from the quilt blocks once they were finished. It holds up well to the iron when pressing the parts of the block, and doesn't seem to cause any trouble with the sewing machine. I will definitely keep using this product!12 of 12 people found the following review helpful. EmbellishmentBy D. AppelquistI used this vellum as an overlay to a Christmas card I made this year. The stamped image under the vellum showed very nicely through the vellum, which is what I wanted.

Use in any printer or copier to make paper piecing super simple!
