Small barely perceptible scratches typical of handling and that's it. Bookseller really took care ofnthis book. I will presrve it also for the next generations of embroidery women in my family.0 of 0 people found the following review helpful. Singer BookBy Mary BI love my vintage sewing machines and think this is a great addition to my library, hope to do some of the projects listed in the book.0 of 0 people found the following review helpful. Four StarsBy KatrinaVery intersting if you like historical articles

A book which shows the reader how to recreate by machine a wide variety of hand-embroidered techniques. These include beadwork, false corduroy, raffia straw work, rugmaking, lacemaking and embroidery on wood veneer.
