My sister got this for me as a gift, and I have to say it's one of the best gifts I've ever received. I'm a fashion stylist, and sometimes-artist, and I dabble in fashion illustration, so this is perfect for me. Not only does it cover various style genres, fashion by the decade, event, and body type, but it also gives simple advice for sketching better fashion illustrations from how to draw a croquis, facial features, foot proportions, add texture to clothing, etc. Each section is accompanied by a silhouette where you can design your own clothing or create your own face and hair style. If you can't/couldn't afford fashion school, this book has all you really need to build on the basics and develop your own style. LOVE IT!

Sketch Your Style is a fully interactive guided sketchbook for anyone who loves fashion and loves to doodle, sketch, and draw. Inside, you'll find step-by-step instructions for drawing and personalizing figures, and more than 50

inspirational exercises and prompts that will help you bring your creative vision to life. From exploring periods in fashion history and fun trends to the work of influential designers, each exercise is introduced with lively visuals and followed by pages where you can try out your own ideas. Some pages are blank, while others have printed templates, such as figure croquis or fabric swatches, as guides.
