Excellent!!!By CidI love this book and use it often as a reference for glazes. I appreciate the broad range of glazes offered, and the fact that this book doesn't cater only to potters, and "functional" ceramics. There's a variety of functional and sculptural styles that offer inspiration for any artist.

This breathtaking collection of work from 53 cermaic artists goes beyond a mere gallery of their work, inviting readers into their studios to share insights into the aesthetics of ceramic surfaces as well as the formulas for some of their most successful glazes.

About the AuthorSusan Peterson, Professor Emeritus of Hunter College, is the author of five previous books about ceramics, including The Craft and Art of Clay, now in its third edition. Her home and studio are in Carefree, Arizona.
