2 of 2 people found the following review helpful. Review of herb guide.By StevenFor a novice gardener (like myself), or researcher, this is a great reference book. This book gives just enough pertinent information for any beginner level pursuit. If you are looking for more detailed information, again this book is only a starting point. Along with beautiful illustrations, this book is worth the price, even if it is destined to fill space on a book shelf, desk, or table.1 of 1 people found the following review helpful. Favorite herb bookBy KateI take this book with me on every hike and camping trip. It's colorful and thorough. I love it so much.
