Making, Soap Making Book, Soap Making Guide, Soap Making Tips, Soap Making Recipes:

6 of 6 people found the following review helpful. Not for a novice.....By Sandy2622I am sorry, I really thought this was NOT a very good book at all, at least for a beginner who knows NOTHING about soap making! Maybe if I was an intermediate level I would understand it better. There are not a lot of explanations as to the terms used....3/4 cup of frosty delicate water? I have no idea what that is, or "at light", what does that mean? I don't know! I am going to educate myself a bit and come back to this book another time...some of the recipes sound awesome, but seems to not be for someone who is a novice!0 of 0 people found the following review helpful. look for The Everything Soapmaking Book by Alicia Grosso and Smart Soapmaking by Anne LBy T. G.You're getting scammed if you actually buy this book. It was not written very well and lacks a lot of information that would be beneficial to new soapers or any level soaper really.If you are a beginner or you're just doing research, look for The Everything Soapmaking Book by Alicia Grosso and Smart Soapmaking by Anne L. Watson to start. You can also go to free sites like The Soap Making Forum. All three resources are miles better than a book that has as many red flags as this far as legitimacy is concerned.1 of 1 people found the following review helpful. not very consistentBy geogirlThe author jumps from cold process lye soaps to melt and pour. She also is not consistent in recipe style. She has most by weight at least one by volume (not considered accurate or safe for lye soap making) and some with just percentages of ingredients.Otherwise recipe ideas were ok.

Soap Making: 25 Ways to Make Hand Soap Quickly and Safely Welcome to learning the art of soap making. If you are getting ready to read this guide then you are probably someone looking to learn something about soap making. Once the process is learned, soap making can be an easy, fun, and productive hobby. People choose to make soap for a variety of reasons including for personal use, gift giving, or as a product to sell in a home-based business. Once you become a soap maker, you will no longer have to waste time shopping for a soap that will not irritate your sensitive skin or make a last minute run to the mall for a birthday gift. Many people enjoy soap making because they can produce unique and useful items. The scientific nature of this craft can appeal to those of us who like to have a guideline to follow while learning, but then be able to work within some general parameters to create one-of-a-kind products.
