**Gail Attwell : Soft Toys Made Easy** before purchasing it in order to gage whether or not it would be worth my time, and all praised Soft Toys Made Easy:

Full-colour photographs accompany clear, step-by-step instructions for making each toy from start to finish. Where necessary, line drawings clarify a complicated procedure so that each soft toy can be created with the minimum of fuss. The range includes mobiles and novelty bibs for babies, animals, dolls (including a bride), cheerful clowns, a pyjama case as well as decorative wall hangings, amusing animal doorstops, finger puppets and tiny Christmas tree decorations. By merely changing the colour scheme or adding an accessory, the reader will be able to create many unique toys from a single basic pattern. Black and white patterns for all the toys are provided at the back of the book.
