**Giuseppina Cirincione : Solder Technique Studio: Soldering Iron Fundamentals for the Mixed Media Artist** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Solder Technique Studio: Soldering Iron Fundamentals for the Mixed Media Artist:

10 of 10 people found the following review helpful. Inspired fun for all those things you've stashed!!! By Kay CAs a Found Object girl that LOVES word play - Solder Technique Studio by Giuseppina Cirincione made my heart beat a little faster. Josie is clever and demonstrates so many ways to use a soldering iron, that you may just toss your glue gun! Tips abound. Easy step by step directions and she shares all of her favorite products and sources. Teaching cutting glass on a curve, and creating display pieces with shelving ...I'm just saying it's not just about jewelry. Best \$26.99 I've spent on a craft book in a really long time. Kay Cummins 4 of 4 people found the following review helpful.

What?! Me solder? YES and YOU can too! By Lisa Marra This is the third book I have purchased from Josie. Each one provides another chance to grow as an artist. I love this book because the steps are simple to follow, and the items are straight out of an expensive boutique. Josie gives you the basics and teaches you how to safely create amazing works of art. The only thing better than this book is the chance to take an actual hands on class with her! I have been fortunate to do both, but know that if you just buy the book you too can learn how to solder. The possibilities are endless! I just made a fan pull for the ceiling fan based on her house pattern. 1 of 1 people found the following review helpful. So Great to Have By Joan I was excited to get this book because I really want to learn how to solder. Like the way it starts showing the tools and supplies you need then works with great pictures and easy to follow detail on how to solder, cut glass, gives directions on how to use the tools. Like the pictures to show how things are suppose to look, she explains why you are doing it a certain way and not another way. Gives the stores where to purchase what she uses. Great book.

Discover Soldering Secrets! Whether you've never soldered before or are used to using your soldering iron primarily for stained glass, you will discover a bounteous new world of artistic possibilities in Solder Technique Studio. Workshop instructor, artist and author, Giuseppina "Josie" Cirincione shares in-depth information about everything from materials for soldering and glass cutting to previously unpublished soldering techniques, such as attaching jump rings using two pieces of glass. Follow along with 14 step-by-step projects, such as a wall shelf, an eyeglass pendant, bottle topper, a glass book and so many more! Inside you'll find thorough soldering and glass cutting techniques, including detailed descriptions of materials with step-by-step photographs. 14 dimensional projects shown step-by-step, and incorporating a variety of mixed-media materials such as previously brewed tea bags, pencils, alcohol inks and much more. Techniques and projects to use beyond mixed-media art, to include stained glass and jewelry work.

About the Author Giuseppina Cirincione is also the author of Collage Lost and Found (2006), and Bent, Bound and Stitched (2008), as well as a contributor to several other North Light titles. Additionally, her work has been published in numerous Stampington publications. She regularly teaches jewelry and mixed-media workshops throughout Arizona.
