**Carolyn Genders : Sources of Inspiration** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sources of Inspiration:

0 of 0 people found the following review helpful. Three StarsBy jtf945OK reference, thought it would be more about clay . . .

This book contains a wealth of images - of both natural and manmade objects - that will spark the imagination of all who see them. In this book the author shows how these images can be visually abstracted and then refined and developed to create beautiful patterns and designs. The result is a useful guide to how the creative process works and a glorious sourcebook of images.
