An Instant ClassicBy Music Lover from WisconsinThe funny thing about Spilly Jane's designs is that they are both quirky and super-wearable for all ages. They're fun to knit, the patterns are well-written, the graphs crystal clear, and they just never, ever go out of style.That's hard to pull off. Spilly Jane does it every time.So, when the news of this book reached me, of course I ordered immediately! SPILLY JANE KNITS MITTENS is pure delight. It's a baker's dozen of mittens and mitts, some tutorials, some templates for designing your own mittens.This book will get a lot of use. I hope it's the first book of many to come from Jane Dupuis.1 of 1 people found the following review helpful.
