I am a medieval history recreator (SCA), and give demonstrations on drop spindle spinning, weaving, embroidery, limnering, and illumination. If you want to learn this antique art form, buy the

Quick read (it's the bare bones and very clear info) I would recommend this book to anyone starting out with processing raw wool and hand spinning. Written clearly and easy to follow. The only thing that I didn't expect is that it is a computer copied saddle stapled pamphlet. I must have missed that in the description. From wool fleece to yarn, this book will help you find and choose your fleece, wash your fleece, and get your wool ready for spinning. It will tell you how to find (or make) a drop spindle, and then spin your yarn. Learn about the magic triangle and how to ply yarn.

Learning to spin is really very simple and unimimidating. Humans have been doing it for thousands of years and this venerable little publication, now celebrating 40 years with an anniversary edition, will show you all the basic skills you need to choose, card and spin fibers into your own yarns on a low whorl drop spindle. --Halcyon Blake, Halcyon Yarn, Bath, Maine About the Author Christine and her husband started a small fiber art publishing business in 1972 which grew to world-wide distribution. Thresh Publications published many books The Manly Art of Knitting by Dave Fougner, Warping All By Yourself by Cay Garrett, California Dye Plants by Marilyn Wilkins, The traditional Moroccan loom: Its construction and use by Carol Phillips McCreary, Let's Try Mushrooms for Color by Miriam Rice, and more. It all started with Christine's first little booklet Spinning with a Drop Spindle. The 40th anniversary reprint is available on now.
