AAA+++By CarbonlordMy daughter had me on a buying spree at our local book store and since there was a great sale, I picked up a few books for her and my son. This was there, she liked the Springtime Garden designs and I noticed it was a really well done book with heavy quality pages and was very nice. We also purchased her Stargazer Space coloring book, which is also excellent.The pages were heavy quality, I would recommend using a safety sheet underneath, if you're going to be using markers. She uses mostly pencils and the sheets are excellent for that.This book has some really nice spring and flower mandala designs for the family. Check my pics for some of the pages! Hope it helps :)2 of 2 people found the following review helpful.
