small booklet. I didn't measure the pages but by observing the size, I'd guess it's 5" x 8". However, the photography and illustrations are done very well. But then, when I read the author is only 20 years old, and she's using proceeds from her booklet to further her education.... Well, that was a game changer for me. I think she's done a marvelous job with her booklet and the instructions are clear and her tips are very helpful. I have 9 granddaughters ranging from 18 yrs old to 1-1/2 yrs old. If only one of them will someday have this young author's ambition, I'd be pleased and very proud. Good job Carly!
