**Frances J Martin : Star Craft** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Star Craft:

2 of 2 people found the following review helpful. Now I figured out that quilling paper strips work great and the size is so consistent. By Lane These instructions are so much clearer than the forty year old mimeographed (remember those?) I have been using. Now I figured out that quilling paper strips work great and the size is so consistent. Good book, clear easy to follow instructions and pictures. Good purchase. 2 of 2 people found the following review helpful. Looking for a new craft. By N. Sullivan I saw a mobile made out of the German stars and wanted to learn how to do them. This book was so easy to understand, but once I went through it a few times I got it. 1 of 1 people found the following review helpful. Easy to follow directions! By B. KLUEPFEL Easy guide and helpful ideas to expand on Froebelsterne. I'd recommend watching a YouTube video as well just to get you started!

A how to guide to creating the Froebel/Moravian folded paper star (and more!)
