Virginia Jensen : Stitching with Two-Hole Shaped Beads before purchasing it in order to gage whether or not it would be worth my time, and all praised *Stitching with Two-Hole Shaped Beads*:

15 of 15 people found the following review helpful. While there are some very pretty items in this bookBy Diane LongWhile there are some very pretty items in this book, the some of the directions are not very clear. I would not recommend this book for an inexperienced beader. I had to flip back and forth between different directions to figure out how to make a bracelet. I have been beading over 5 years and found the directions confusing.13 of 13 people found the following review helpful. difficult to follow.By Dianna WolfeThe designs are beautiful. The directions are very hard to follow. I am an experienced beader and find the directions are not user friendly. I would not suggest this book to my friends.4 of 4 people found the following review helpful. Lacks crucial informationBy E. DettreyThe projects are very nice in the book and seem to be for the beginner. However I made two bracelets and the diagrams are limited leaving you lost in the pattern and also one bracelet there wasn't enough information on what thread to use. So

I had to guess. Doesn't show you how to attach the toggle and loop to the piece either. I just did whatever and know it wasn't the best way to go about it. The pretty bracelet in Chapter 7 called Right Angle Weave Bracelet with Super Duos was a real problem one. It should have suggested using a thick thread because it didn't hold its shape. Instructions was not on this one to help you size it either. So I had to make the bracelet twice. After wearing it the bracelet rolled and didn't keep its shape I am done with making this again. I plan to make a few more projects out of this book to see what comes of it. However I am not going to buy any of Virginia Jensens books again. I don't like my time or supplies wasted like this.

Stitching with Two-Hole Shaped Beads gives jewelry makers new ideas for using popular two-hole beads. Stitchers will learn how to use squares, Tiles, SuperDuos, rullas, bricks, disks, and more to create over 25 beautiful, geometric projects. These gorgeous bracelets, earrings, and collars are made with five stitches including herringbone, peyote, square stitch, right-angle weave, and Virginias unique new stitch, the 'cluster stitch'. As always, Virginias clear illustrations and instructions help all beaders understand and execute each piece with success.

About the Author Virginia Jensen is a designer/teacher of bead weaving and the author of Cube Bead Stitching and Contemporary Cube Bead Designs. Her beaded designs have appeared in many leading beading publications, including BeadButton magazine. Virginia is co-founder of her areas Art Jewelers Guild and shares her talents for beadwork through her own website. She lives in Grand Junction, CO.
