Qing muhezi : Stitchwork by Kazuko Aoki Tiny Embroidery Tiny Garden (Chinese Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Stitchwork by Kazuko Aoki Tiny Embroidery Tiny Garden (Chinese Edition):

Teacher Kazuko Aokis spiritual garden is carefully cultivated in the deep inside. The fascicular larkspurs, the blooming lavenders, the lawn in fairy tale world, and the idyllic beauty in legend, which are impossible to see in our real life, but they are realized by embroideries. Even though there is no real garden or withered flowers in winter, our spiritual garden will be of attractive scenery as long as watering carefully every day.
