Jane Nicholas : Stumpwork Embroidery Designs and Projects (Milner Craft) before purchasing it in order to gage whether or not it would be worth my time, and all praised Stumpwork Embroidery Designs and Projects (Milner Craft):

0 of 0 people found the following review helpful. This book is a comprehensive book on stumpwork with great examples and pictures of specific stitches in detail. By Demi Buyer Very nice book for your embroidery library on stumpwork. Any of Jane Nicholas' books are a welcome addition for those interested in stumpwork.....from the beginner to the expert stiticher. There is something for everyone in her books. 1 of 1 people found the following review helpful. better if you have companion book with it By JacquelineB Lots of black and white pictures. This book continues it's projects based off an earlier publication, which one needs on hand to reference too. So as a beginner to the

craft... I now have to go buy the earlier publication in order to complete this book. over all, I will be pleased with the book once I get all the ducks in a roll.0 of 0 people found the following review helpful. Great book, came in a timely manner, and in perfect condition.By Audrey E. StathamExcellent companion to first book by Jane Nicholas. It came in great condition and promptly. If you are interested in a different kind of embroidery, or add dimension to what you already do, get this book.

Stumpwork or raised embroidery has a rich texture that really makes a design stand out. Create hangings, embroidered brooches, and images of flowers, animals, and wildlife with these 19 projects. Stitch dandelions, buttercups, and butterflies; a deer next to a pear tree; a pinwheel decorated with foxgloves on one side and a dragonfly with metallic wings on the other. Includes instructions for every stitch you need.

About the Author Jane Nicholas has worked in the field of embroidery for over twenty years, specialising in stumpwork and goldwork embroidery. She has written five books and has contributed widely to journals and magazines. She teaches widely for Embroiderers' Guilds and businesses in Australia, New Zealand and the United States, and continues to research and develop new techniques, particularly in stumpwork.
