**Gun Blomqvist, Elwy Persson : Tatting Patterns and Designs (Dover Knitting, Crochet, Tatting, Lace)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tatting Patterns and Designs (Dover Knitting, Crochet, Tatting, Lace):

patterns, but if you are new to tatting (as I am) this book is not for you. The patterns are written cryptically which makes it difficult to decipher if you are not an experienced tatter. I have made some patterns from the book and they have turned out beautifully. 0 of 0 people found the following review helpful. Best beginner book. Wish it had been my first! By Joni L. Quick This has great patterns and great pictures and descriptions for the learner. It is the best beginner book for learning on your own. Absolute must for a beginner. 1 of 1 people found the following review helpful. My Favorite Tatting Book! By A. This is the first book I got long ago. I was pleasantly surprised to find that it still amazes me. There are tons of motifs, doilies, edgings, and (my favorite!) crowns. Exquisite projects. I love this book. The tatting in the pictures is quite messy, but when you tat it, it will look much better.

Here is a distinctive gallery of over 85 beautiful and useful tatted items mats, bookmarks, edgings, collars, crowns, medallions, and more all ideal for resting and developing the skills of both intermediate and advanced tatters. Created and compiled by two well-known crafts and needlework experts, teachers, and editors, these delicate designs include the dainty Annette and charming Margareta lovely edgings that will add a touch of elegance to fine linens, handkerchiefs, and personal apparel and exquisite doilies such as Mignonette and Peony, perfect for use as centerpieces, vanity sets, and table settings. Each project is clearly photographed and detailed instructions specify what thread to use, the size of the design and number of shuttles needed, tatting stitches involved, and proper sequence for each. Also included are a brief history of this great traditional craft and instructions on its principal techniques.
