**Cathy Bryant : Tatting** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tatting:

0 of 0 people found the following review helpful. Good Illustrations for tatting.By Shanon CamposIts a very good book for tatters. The most of it, is learning the techniques. There is only a small section of tatting patterns.NOTE: This book has some very good drawings of hiding ends....if you are having trouble, this book would probably help you. Not EVERYTHING tatting is put in here, but it would be an excellent purchase for any tatter.1 of 1 people found the following review helpful. great beginner bookBy Aleen Williamsthis book has a lot of beginner tips on how to read a pattern and good pattern details. Small and unique projects.2 of 2 people found the following review helpful. Replacing old, used bookBy UleedogBest book I have ever found on the subject. Please do consider it if you want to learn or expand knowledge of tatting.

This book guides the beginner through all the basic techniques of tatting. There are sections on choosing equipment, how to read patterns, and on understanding tatting construction. A collection of 30 patterns, suitable for all abilities, includes edgings, inserts, mats, collars, and 3-dimensional projects such as baby booties.The patterns incorporate all the basic techniques taught in the book as well as some decorative techniques. Some patterns use drawings as well as

printed instructions, and all are accompanied by a photograph of the finished product.
