0 of 0 people found the following review helpful. There are soooo many new products in the taxidermy supply catalogs its pretty much better to request a good catalog than dependBy TizzyThe information is ok but old and seems to be a reproduction of old taxidermy information. There are soooo many new products in the taxidermy supply catalogs its pretty much better to request a good catalog than depend on old info. You can however consider these books as history of taxidermy just in case you'd like to try the craft the "old way" .0 of 0 people found the following review helpful. unpleasant script, lack of professional pictures and drawingsBy Victoriaunpleasant script, looks as a "copy and paste" from different sourceslack of professional pictures and drawingsfeels very cheap

This comprehensive guide to the taxidermy of birds is part of a series on taxidermy and comprises eleven detailed chapters by various experts on the subject. It is extensively illustrated with black and white photographs, diagrams and drawings. Taxidermy Vol. I Birds takes a comprehensive and informative look at the subject, and is a fascinating read for any taxidermy enthusiast or historian of the craft. Contents Include: History of Taxidermy; How to Collect and Preserve Eggs and Nest; Skinning Birds; General Methods of Preparing and Mounting Birds; Collecting Skins of Large Birds; Mounting Large Birds; Collecting Skins of Small Birds; Mounting Small Birds; Preserving Insects and Birds Eggs. This book contains classic material dating back to the 1900s and before. The content has been carefully selected for its interest and relevance to a modern audience.
