**Jimmy Kennedy : Teddy Bear's Picnic : Miniature Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Teddy Bear's Picnic : Miniature Edition:

2 of 2 people found the following review helpful. Loved this book since my children had it 35 years ago.By SLTbought this for our granddaughter with an adorable bear. Planned a Teddy Bear Picnic Birthday party around this book....bear hunt, bear bean bag toss, bear cake, other cute embellishments.0 of 0 people found the following review helpful. Teddy Bears PicnicBy OlgaThis is a great book to read to children before they go to bed. They should have a recording of the music to go along with it. Children love this book0 of 0 people found the following review helpful. Love the song, book is okayBy KCPFor 8 dollars or so, not bad..... The pictures are nice, but this is not high quality obviously. I would prefer hardcover as another reviewer mentioned because I don't think this will be durable once my child gets to it. He already drooled on it and bent the pages, but keep in mind my son is only 6 months old. What bugs me the most is that my version has two blank pages before I see the inside title page which looks a little odd to me and more importantly that shipped the book with an oxyclean liquid cleaner I had also bought and there was a minor spill on book thanks to that dumb packaging mistake. However, not worth the hassle to return but I will think twice when I order books together with other items on . Overall, buy the book for the price and because the song/ story is cute, but I

don't think is worthy to be given as a gift alone etc.
