Cass Clemmer : The Adventures of Toni the Tampon: A Period Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised The Adventures of Toni the Tampon: A Period Coloring Book:

0 of 0 people found the following review helpful. I love this coloring book!By Anthony LawsonI was so excited to receive this coloring book! It's really high quality and it's clear a lot of time and love was poured into this. I loved every drawing (my personal favorite is the menstrual cup as a super hero) and I was really impressed by how fun, whimsical, and educational this coloring book was. Before I bought this book, I had never heard of using a sea sponge as a menstrual product, and now I'm going to look into it! I had the coloring book on my coffee table this weekend and my friends picked it up and we started talking about it, and now they are going to buy themselves a copy too. Thank you Toni for helping to smash the period taboo! I wish I could have had one of these as a kid, would have made talking about my period much more easy and fun. Can't recommend this enough.21 of 32 people found the following review helpful. Can't Stop Talking AboutBy Emily of OZCreative and fun! I honestly tell all my friends about it!1 of 4 people found the following review helpful. My fun and inspiring coffee table book!By CustomerAmazing! This is my new coffee table centerpiece- great for starting a meaningful conversation about sex, gender, and (of course!) periods. Not to mention it's adorable, cheeky, and fun- my favorite is the anatomical maze :) I've bought copies for friends and can't wait to get more.

Smash the period taboo with Toni the Tampon! Color in 20 hand drawn pages of Toni's adventures with friends. Great for all ages, this coloring book is an easy way to start a conversation with young kids about menstruation, and a perfect excuse for adults to have some bloody good fun.

About the Author Cass is an artist and menstrual health educator who harnesses the power of creativity and humor to shift the conversation around menstruation. Cass grew up as a missionary kid in the Democratic Republic of Congo, where a deeply conservative community taught everyone to be ashamed of their periods. Today, Cass is fighting back by sketching tampons, pads, cups, and sponges as a way to educate menstruators of all ages and genders about the magic that is menstruation.
