Maying Hsi Soong : The art of Chinese paper folding for young and old, before purchasing it in order to gauge whether or not it would be worth my time, and all praised The art of Chinese paper folding for young and old,:

1 of 1 people found the following review helpful. Chinese Paper foldingBy SeductionI used to check this book from Libary as kid. than it disapeared. Iam so happy I find on to relive my childhood.. I love Paperfolding and Origami as a Hobby. good to own this book.0 of 0 people found the following review helpful. Great classic origami book.By Romance readerI used to borrow this book from the local library when I was a kid; I taught myself origami from the book. Now I bought it for my great-niece who is fascinated by folded paper figures. The book is over 60 years old but it's still a classic.1 of 1 people found the following review helpful. EssentialBy J. Brian WatkinsOK, maybe not essential, but if you are to be appropriately well-rounded you should at least be able to fold a box, a balloon or a paper hat. This volume was a staple of my elementary school training--obviously in the days prior to the endless competency testing that has shoved away the kinds of activities that made school fun. Basically the book offers simple instructions for folding paper. This isn't the extremely complex Japanese stuff, i.e. fold a working model of an internal combustion engine. These are projects that a third-grader can accomplish. I scoured the web for my copy but find that copies remain available even today at very reasonable prices. Go get one.

Shows how to fold paper into art with a sheet of paper but no glue, scissors or other tools.
