NO PICTURES!! By Donna M. Weigell was looking for creativity. The cover looks great and appears to have great ideas but there is NOT ONE PICTURE in this book! She does have a lot of ideas for additives and examples of how much fragrance to add, or color or clay or other oils. I would say this book is more for beginners. If you are looking for new ideas then forget it. NO pictures?? 2 of 3 people found the following review helpful. So many ideas, so little time! By Love to soap! This is such a fun book, it's hard to put it down. As a veteran MP soaper, even I was able to find new and innovative ways to create special, one of a kind soaps. The section about using Essential Oils to make healing, soothing soaps alone was worth the price of the book, not to mention the many ways to package, embellish and present the finished soaps. I even learned a couple of new ideas for molds. From simply elegant to whimsical and downright cute, the author covers every type of MP soap there is! I definitely recommend this book for veterans and beginners both!

If you want to make bath time fun, just make your own designer soap with your favorite decorations inside! Your kids and guests will love this. Have a blast!! Melt and Pour is one of the easiest and yet creative ways to express your flair for colors, scents and expression. Imagine your cost in these beauties that retail for between \$3-\$6 and are less than .50 to make by yourself! Impress your family and friends. Learn how to make YOUR OWN Designer Soap! This instructional guide tells you everything you need to get started. We even show you how to emboss or embed soap by sticking a detailed button, key chain, or coin in the center of a mold with a little rubber cement to keep it in place! You will find many of our recipes serve a definite function, are much better than you could ever think to buy in the store and will save you money in almost every part of your home! No longer do you need to "wish" you could afford quality products when you can make your own in minutes. Best of all making your own melt and pour soap is fun and very easy to clean up! If you ever have any questions feel free to call the Mabel White staff toll free at 866-358-LOVE. Achy Day soap, your first recipe will address all the common elements of care required by the melt and pour methodology so I recommend you study that recipe first.
