I agree with everything you said. Also there was a lot of wasted space showing just color blocks with nothing in it. There really is nothing worthwhile in this book.Em12 of 14 people found the following review helpful. uninspired drive!By lovesbooksThis book is so poorly executed,uncreative,uneducational and uninspired that I returned it. GuimaraesI really liked this book, I have many books of mosaic, but this one is not a convencional mosaic, it's really very modern.

With this generously photographed guide in hand, even beginners will be able to create fashionable jewelry, home

accessories, and religious objects with the timeless beauty of mosaics. Distinguished artist Ronit Attias takes newcomers step-by-step through every phase of making their own pieces, offering the most innovative techniques and ideas including computer sketching, a valuable new technology that she demonstrates with a collection of images. The dazzling projects all feature a festival of colors and unique materials, and vary in size and dimension from 60-inch sculptures to tabletop lamps, from expansive murals to decorative candlesticks. Select from a flower table on wheels, Cleopatra mirror, sunshine wall clock, theatrical scone, and Hamsaan ancient talisman believed to bring good fortune.
