Dick Bruna : The Christmas Book before purchasing it in order to gage whether or not it would be worth my time, and all praised The Christmas Book:

3 of 3 people found the following review helpful. a must for all dick bruna loversBy PennyPlainThis must be the 6th copy of this book that I have bought. In the early 1970s I bought it for my daughter and then it was later enjoyed by my son. I've bought it for godchildren and now for my first grandchild. I used it each Christmas in the classroom when I taught and created classroom murals based on the book.It is so simple and the illustrations do not date. Two years ago I bought my own copy and still read it each December. Dick Bruna is my favourite children's illustrator and The Christmas Book is my favourite of his books.0 of 0 people found the following review helpful. A classicBy K. PizzoI had this growing up and loved it...now my daughter can learn about the nativity in the same way. Fantastic!0 of 0 people found the following review helpful. This paperback edition of Dick Bruna's charming Christmas Book comes complete with a press-out crib scene. From the creator of the much-loved Miffy series of books, this delightful title retells the birth of Jesus using simple text and charming illustrations, which also feature on the press-out pieces which can be used to create your own little nativity scene.
