C. Ollard : The Complete Book of Needlecrafts before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete Book of Needlecrafts:

0 of 0 people found the following review helpful. ... what I was looking for and it arrived in good condition. Thank YouBy CustomerJust what I was looking for and it arrived in good condition. Thank You, Mary Campbell

From Library JournalTo call this the "complete book" of needlecrafts is somewhat misleading, since it covers only the techniques of embroidery, needlepoint, quilting, applique, and patchwork. Originally published in England, the book emphasizes the traditional techniques for which British needlework is famous. The individual chapters combine basic instruction with patterns and step-by-step instructions for projects. It is not as extensive or as detailed in coverage as The Reader's Digest Complete Guide to Needlework (LJ 11/1/79), which remains the best modern guide in this field. Still, it is well illustrated and does provide some attractive projects. Recommended for public libraries.- Constance Ashmore Fairchild, Univ. of Illinois Lib., Urbana-ChampaignCopyright 1990 Reed Business Information, Inc.
