**Robert E. Gough, Cheryl Moore-Gough : The Complete Guide to Saving Seeds: 322 Vegetables, Herbs, Fruits, Flowers, Trees, and Shrubs** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Complete Guide to Saving Seeds: 322 Vegetables, Herbs, Fruits, Flowers, Trees, and Shrubs:

0 of 0 people found the following review helpful. that's pretty startling. By m rice Fabulous. If you want to know how to save and prepare seeds for germination, this is your guide. Thank you, M M Gough. I learned a lot, and for a gardener with my experience, that's pretty startling. 3 of 3 people found the following review helpful. Incredible tome! By bluesman99026 There is not only a ton of great information between the covers of this book, but there are wonderfully put together science and history courses as well. An awesome book for my shelf, a reference I will go to many more times and a truly wonderful reminder of how important the teachings were of all of those who came before us... Thank

you.4 of 4 people found the following review helpful. Must for the self-sufficient!By Lizzie TThis is a MUST have for the homestead! Nothing more satisfying than growing your garden from seeds that you collect yourself! A good skill to have, grow lovely flowers and food for virtually nothing (no seeds or plants to buy when you harvest from your established garden or neighbor ).

Enjoy your favorite varieties of garden plants year after year with this comprehensive guide to gathering, preparing, and planting seeds. Authors Robert Gough and Cheryl Moore-Gough provide simple instructions that clearly explain the whole process, from basic plant biology to proper seed storage and successful propagation. Gardeners of any experience level will find all the information they need to preserve genetic diversity, cut costs, and extend the life of their favorite plants to the next generation and beyond.

About the AuthorRobert Gough holds a doctorate in botany and is Professor Emeritus of Horticulture at the College of Agriculture, Montana State University. He is the author of 17 gardening books, 500 extension service publications, and articles for Fine Gardening, Country Journal, National Gardening, Zone 4, Montana Magazine, and Harrowsmith. He served as Extension Horticulturalist in Montana, hosted the popular Dr. Bobs Northern Gardening Tips radio program for 10 years, and was a panel member on PBSs Montana Ag Live for 15 years. He is a Fellow of both the American Society for Horticultural Science and the North American Colleges and Teachers of Agriculture, as well as a member of the advisory board of Zone 4.
