A practical guide to creating a wide variety of beautiful papers. Find out just how simple it is to make your own paper

using equipment that, for the most part, is already to hand in most homes.

From Library Journal Plowman (The Encyclopedia of Sculpting Techniques, Running Pr., 1995) is a sculptor who has turned his hand to the making of decorative paper. This well-illustrated book covers many aspects of making paper from various raw materials, as well as the use of the finished product in projects. This guide has many similarities to Sophie Dawson's *The Art and Craft of Papermaking* (LJ 12/92); in fact it contains several photographs from the Dawson book. Libraries having Dawson's book probably will not need this one, but otherwise they will find this a good addition to their crafts collections. Copyright 1998 Reed Business Information, Inc.
