Peter A. Gail : The Dandelion Celebration: A Guide to Unexpected Cuisine before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dandelion Celebration: A Guide to Unexpected Cuisine:

1 of 1 people found the following review helpful. A fun and interesting readBy John A. LeraasA very nice little book discussing dandelions, their origins and their uses. Horticultural aspects of,dandelions and their consumption as food

are discussed in a most interesting way. This volume is educational and utilitarian. Alternative health uses are discussed but no claims are made as to their efficacy, which is appropriate. All that considered, it is a fun and interesting book to read. 0 of 0 people found the following review helpful.
